DOCUMENTATION OF MENTAL HEALTH DISABILITY

I understand that this Medical Certificate will be released to SASS – Academic Accommodations at the University of Ottawa.

Student Name: _____________________________  Student Number: ________________________
Student Signature: __________________________  Date: _________________________________

I consent to disclose the diagnosis of my mental health disability
Student Signature: __________________________
___________________________________________________________________

What is the purpose of this documentation?
The purpose of this form is for SASS – Academic Accommodations at the University of Ottawa to:
• confirm the presence of a medical condition;
• identify if the condition is permanent or temporary;
• evaluate functional limitations in the learning environment;
• help SASS – Academic Accommodations determine appropriate accommodations and supports.

Who can complete the form?
The documentation form is to be completed by an appropriate regulated mental health professional who has knowledge of the patient’s history and is licensed to diagnose and treat mental health disabilities.

How are the student’s needs assessed in the academic setting?
A disability service professional at SASS – Academic Accommodations will review the documentation to anticipate barriers and work with the student to create an accommodation and learning plan. SASS – Academic Accommodations requests that all sections of the form be completed fully and objectively for accurate assessment of the student’s disability-related needs. Careful consideration should be given to the Statement of Disability and Functional Limitations.

The information you provide in the form can be used to support the need for services and academic accommodations, or access to a range of benefits including government funding.

Is a DSM-5 diagnosis required?
Students are not required to disclose a DSM-5 diagnosis in order to receive accommodations or supports. However, if a diagnosis is not provided, functional limitations must be fully described and additional information may be requested in order to determine appropriate accommodations and supports.
DSM-5 Diagnosis
If the student has consented (page 1) to disclose a specific diagnosis, please state the DSM-5 diagnosis.

_________________________________________

Statement of Disability
The following criterion must be met for the determination of a disability:

*The student experiences functional limitations due to a mental health disability that impairs the student’s academic functioning while pursuing post-secondary studies.*

☐ In my professional opinion, I confirm the student has a formally diagnosed mental health disability.

- OR -

☐ I confirm that I am in the process of assessing the student’s condition to determine a diagnosis.

Duration of Disability
The student has a permanent disability (expected to remain with the student throughout his/her life) with symptoms that are:

- chronic
- episodic

The student has a temporary disability with symptoms that are:

- improving with time
- episodic

Anticipated duration of temporary disability from: ____________________ to ____________________.

Treatment Plan
1. If a diagnosis has been confirmed, please provide date of first diagnosis:

2. How long have you been treating the student?

3. Will you be monitoring the student on a regular basis?
   ☐ Yes, every ____________________.
   ☐ No, this student will be followed by____________________.

4. If the student has been prescribed medication for this condition, can you specify current (if any) side effects that may impair the student’s academic performance?
   ____________________
   ____________________________________________
   ____________________________________________

5. Does the student have limited functioning at certain times of the day? Please check all that apply:
   ☐ Morning ☐ Afternoon ☐ Evening
   Please specify: ____________________________________________

6. Are there other treatments or therapies that the student receives?
   ____________________________________________
### Functional Limitations

Please evaluate the level of impact specific to the university academic environment.
